^a Cites are taken from Social Science Citation Index and webofscience.com. Count does not include cites in unpublished papers but does include cites in published papers that reference unpublished versions of Weisbach's papers, some of which were cited under a different title. Counts do not include self-citations. Counts include all cites listed on webofscience.com by September 12, 2007 and hence likely understate total counts for 2007 and 2008.
